Councilor Dodson:

This is to advise you of the disposition of an Ethics Complaint filed against you regarding the location of the Eastside Clinic on the campus of Union Public Schools' Ellen Ochoa Elementary, 12020 East 31st Street. This project was included in the 2016 Vision package at a cost of almost \$10 Million and was identified to voters as "*Community Health Connection East Clinic*". The allegation was that, in public discussions of that proposed Vision Project, you told constituents that this clinic would hopefully be constructed in McCullough Park. During the internal investigation and review of the Complaint, it was recognized that once a capital improvement project is approved by voters, the details and execution of those projects are out of an individual Councilor's control, and are subject to execution by the Mayor's administration, as long as it is consistent with what voters approved; which this one was.

In addition, this Complaint did not fall within the regulatory scope of Tulsa's Ethics ordinance, inasmuch as it did not allege you took any action when you had a conflict of interest that was financial, organizational, or personal, or that you appropriated City resources for personal benefit.

In conclusion, upon internal review of this Complaint, it was determined that it was **UNFOUNDED** and merited no further investigation.

Respectfully,

Patrick
